VACATION BIBLE SCHOOL:

- Vacation Bible School is only three weeks away! Be sure to visit the church website (www.peoriacrc.org) or pick up a form from the bulletin racks to **register** for this fun week. Children age 4 through those who are entering 7th grade are invited to attend.

- Do you have any friends or neighbor kids who may be interested in attending VBS? Be sure to invite them! In the bulletin racks today is a **flyer** to give them that includes the details.
- Can you help with VBS this summer? On the table in the basement is a **volunteer sign-up sheet** for helping with music, snacks, games, etc. A shepherd and assistant shepherd are needed for each age group to guide the students from station to station. Men, women, and young people who have completed at least 7th grade are encouraged to serve our young neighbors at VBS on July 12-15. Thank you for considering this opportunity to help!
- Vacation Bible School needs **supplies** to use for exploration stations for the preschool and kindergarten classrooms. There is a sign-up sheet and more information on the basement table. Thank you for your help!

The **Peoria GEMS Club** needs helpers to assist our two counselors for next season. An abundant supply of volunteers would allow your commitment to be occasional and not weekly! If you are interested in serving our covenant and community girls or have questions, please contact Pam Klyn.

CHURCH FAMILY

The **Midwest Cadet Camporee** will be held at Camp Wapello June 21-25. Three Cadets and three counselors will attend from Peoria. Please pray for safety for Cadets, counselors, support staff, and others, and for God's blessing through this time of learning and spiritual growth for all who attend.

We give thanks to God with **Lois Klyn** on the occasion of her 91st birthday on June 25.

"Thank you for your support shown to our family in our time of grief. Your prayers, cards, and kind words were all truly appreciated." ~ **Family of Thessa Deur**

Heart Health & Dordt University: Here's a chance for you to learn more about your heart health and to help raise awareness for others at the same time! Recently, a mutation in the PLN gene encoding for cardiac muscle cell regulation has been discovered to affect individuals with Dutch ancestry. Since it is a genetic condition, the PLN mutation is passed along from generation to generation, and carriers of the mutation may experience a decreased lifespan as well as cardiac heart failure symptoms. A research group at Dordt University is developing a study to raise awareness of this mutation and to help people understand the impacts of the mutation on families. If you are interested in learning more about PLN and its effects, please contact Lucy Borkowski (lcyrkwsk19@dordt.edu) and follow the PLN Genetic Mutation Awareness Facebook page.
